Comments from the Chair

The members of the State Committee of Psychologists have worked diligently developing the Missouri Jurisprudence examination. This examination is a requirement for maintaining membership in the Association of State and Provincial Psychology Boards (ASPPB) reciprocity for licensure agreement that the state of Missouri joined in 1996. In addition to a Jurisprudence Examination for applicants for licensure, the ASPPB agreement also requires an Oral Examination of applicants for licensure, which the State Committee of Psychologists is also working to develop. Psychologists who have assisted with the development of this oral examination include Mary Catherine Dettling, Elissa Lewis, David Edens, Janice VanBuren, Carl Willis, Clifford Whipple, Elizabeth Kraemer, Darrell Hartke, and Betty Schlesing. In the near future, the State Committee of Psychologists will be working to standardize this examination, and may request the assistance of Missouri licensed psychologists in the standardization process.

The State Committee of Psychologists, with the help of the Missouri Psychological Association, developed continuing education guidelines in accordance with the continuing education requirement promulgated by the Missouri Psychological Association, and passed by the Missouri legislature. This law requires 40 units of continuing education every two years. The rules and regulations for these continuing education units will be published in the Missouri Register in the near future. We invite your comments about these proposed rules and regulations.

Another activity of the State Committee of Psychologists has been to review the current rules and regulations. Proposed changes include, but may not be limited to, reduction of fees, and changing some criteria for post-doctoral residency or post-doctoral fellowships for licensure in Missouri. These proposed changes will also be published in the Missouri Register in the near future. We invite your comments about these proposed changes also.

Comments from the Chair

(continued from page 1)

The State Committee of Psychologists has also been working together with the Missouri Psychological Association to propose changes in the licensing law. Proposed changes in the law include, but may not be limited to, proposing that Provisional and Temporary licensing be initiated in Missouri, and that provisions be made for Inactive and Retired licenses for psychologists who are currently licensed in this state. The proposed bill has passed in both the Missouri Senate and House, and can be located, on the internet by locating the Missouri Senate section regarding impending legislation.

The membership of the State Committee of Psychologists has changed in the past year. Our gratitude is offered to former board members who worked so hard to assist in regulating the practice of psychology in Missouri. These former members are Karen Woods, Duane Hartley, Carl Willis, Janice VanBuren, and our former public member, Yolanda Lorge. Thank you for serving diligently, and giving your time and talents toward consumer protection of psychological services rendered. Committee members are required to review approximately 500 to 1000 pages of material each month, and we appreciate their dedication in doing so, their concern for the protection of the consumer of psychological services, as well as, their dedication in reviewing the extensive number of applications for licensure.

We welcome new board members, Rochelle Harris, Glenn Good, Vetta Sanders Thompson, and Helen Gab, who is our public member. You have already worked diligently and we appreciate your hard work, and your concern for both psychologists and the consumers of psychological services. We look forward to many meetings involving "hard work", diligent reviewing of all materials and concerned, careful decision making by all. We also welcome our new Executive Director, Pam Groose. The State Committee of Psychologists has been pleased with the progress that has been made subsequent to Ms. Groose's appointment to this position, and look forward to working together for continued progress in the future.

Message from the Division Director

My office has been working diligently with all 33 licensing boards in the Division of Professional Registration to provide greater service while reducing our costs. This will translate into great efficiencies and effectiveness and will stabilize your license fees (if not lower them).

Our goal is to "reduce the number of incompetent, negligent, fraudulent and dishonest services provided by Missouri regulated professionals", which will protect all Missourians in advance and lower the dollars we now spend to investigate, prosecute, and litigate complaints.

Please stay tuned-in with us as we try an innovative approach to regulation.

Warmest Regards,

Randall Singer
Division Director

Notice Regarding EPPP Content

New test specifications have been developed by the Professional Examination Service, who is contracted by the Association of State and Provincial Psychology Boards to develop the Examination for Professional Practice of Psychology (EPPP). These specifications were established and implemented by the Professional Examination Service in April 1997. The EPPP now contains eight content domains as follows:

Bio Bases of Behavior	11%
Cognitive Affective Bases of Behavior	13%
Assessment and Diagnosis	14%
Ethical/Legal/Professional Issues	15%
Growth and Lifespan Development	13%
Social and Multicultural Bases of Behavior	12%
Treatment/Intervention	16%
Research and Evaluation	6%

Health Resource Statistics

The Missouri Department of Health State Center for Health Statistics recently published the Missouri Health Manpower for 1994. The following information was taken from this publication.

There were 1,320 licensed psychologists in Missouri in 1994. Of this number, 1,217 were actively practicing. Translated into psychologists per 10,000 residents, the rate equals 2.3. However, this actual rate may be somewhat higher than the 2.3 figure, since psychologists who were employed exclusively by state government were not required to be licensed in Missouri.

Psychologists are primarily metropolitan based as illustrated by the 3.1 rate per 10,000 population in major metropolitan areas compared to only 0.7 in non-metropolitan areas. The Regional Planning Commission (RPC) rates per 10,000 range from a high of 4.4 in Mid-Missouri to 0.1 in South Central Ozark, Green Hills and Bootheel. Although the majority of counties do not have active licensed psychologists, there is at least one active psychologist in every RPC.

There appears to be an ample supply of young psychologists for replacement needs since 33 percent are under age 45. In fact, only 25 percent are age 55 or over.

Four out of every ten (40.8 percent) active psychologists are female. This is the highest percentage of women in any of the traditionally male-dominated professions in this report. Over 95 percent (95.5%) are white.

Psychologists in private practice increased by 295 between 1982 and 1994 with 47.3 percent of all active psychologists indicating private practice as their primary setting of employment. An additional 17 percent are employed in schools and 25 percent work in a hospital facility or clinic setting. Forty-seven percent are self employed. The principal employers of the remaining professionals are schools, hospitals, and state government.

Less than half (47 percent) of all active psychologists were educated in Missouri. Only two other states have educated a significant number - Illinois (6 percent) and Kansas (6 percent). Most of these professionals are educated as either clinical or counseling psychologists (84 percent). Almost all active psychologists have a doctorate (80.3 percent) but 17.7 percent have only a master's degree.

The Missouri Health Manpower publication contains statistical information for all professions. For licensed psychologists, the statistics that are available from 1994 include licensed psychologists by activity status, with rates, by county, for regional planning commission areas: active psychologists by ten-year age groups for regional planning (continued bottom of page 7)

Things to Know about your Board
